Project Plan

1. Product Backlog

User Story 2: As the pharmacist, I can label items as "discontinued" so that these items will not be reordered.			
Assigned to: Trixie, Bernard, Karl, Stephen			
Total Estimate: 4 hours		Priority: 15	
Task #	**Task Description**	**Effort Estimate (hours/days)**	**Assigned to**
1	Design Discontinue screen	1h	Karl
2	Connect UI to database	1h	Stephen, Bernard
3	Testing	1h	Trixie
4	Debugging	1h	Stephen, Bernard

User Story 3: As the pharmacist, I can view the list of items that are out of stock or below the reorder point so that I can easily determine which items to reorder.			
Assigned to: Alex, Jeric, Paolo			
Total Estimate: 4 hours		Priority: 20	
Task #	Task Description	Effort Estimate (hours/days)	Assigned to
1	Design Items to Reorder page	1h	Alex
2	Connect UI to database	1h	Jeric
3	Testing	1h	Paolo
4	Debugging	1h	Jeric

User Story 7: As the pharmacist, I can manage the documentation of expired and near-expired items so that I am able to appropriately tag, recall the supplier, or dispose.			
Assigned to: Nico, Paolo, Stephen			
Total Estimate: 1 day		Priority: 15	
Task #	Task Description	Effort Estimate (hours/days)	Assigned to
1	Design Expiry Mgmt. page	1h	Nico
2	Connect UI to database	2h	Stephen
3	Testing	1h	Paolo
4	Debugging	1h	Stephen

	User Story 8: As the owner, I can view the sales report as basis for the computation of the monthly sales report and the monthly income statement.		
Assigned to: Trixie, Nico, Stephen			
Total Estimate: 2 days		Priority: 20	
Task #	**Task Description**	**Effort Estimate (hours/days)**	**Assigned to**
1	Design Reports page	1h	Nico
2	Connect UI to database	4h	Stephen
3	Testing	4h	Trixie
4	Debugging	4h	Stephen

2. Iteration Plan

User Stories	Iteration 1	Iteration 2
1 - Add new items to product list	✓	
2 - Label items as "discontinued"		✓
3 - View the list of out-of-stock and critical items		✓
4 - View the product list	✓	
5 - Update quantity and add expiry dates for restocking	✓	
6 - Record transaction details	✓	
7 - Manage documentation of expired and near-expired items		✓
8 - View sales report		✓
9 - Export lists to external files		

3. Timeline

Jul 24 - Jul 30: Code fixes, solving Iteration 1 issues
Jul 31 - Aug 13: Working on Iteration 2 User Stories
Aug 14 - Aug 20: Testing-Debugging Cycle
